Subject: Planning application 2023/3861/P Primrose Hill Gates

[REDACTED]

Dear Mr Zuk,

I am writing to show my support for the
installation of permanent park gates to Camden planning department.

I live at the Kingsland Estate. My concern is the amount of anti-social behaviour that occurs on our estate during the night. Our estate backs onto Primrose Hill park. We have one of the few entry gates, on the St John's Wood side, into the park. During the warmer days of the year, our estate becomes a major thoroughfare for park visitors. We are inundated with beer bottles, rubbish, and drug paraphernalia. Literally our estate is used as a toilet.

In addition, the noise level becomes unbearable. Park visitors, stopping in our estate to have a party or scream at their friends is frequent. The shouting, as well as the music, coming from the park, during late night raves, is incredibly disturbing.

In the morning, the park is littered with the detritus from parties on the park. Drug paraphernalia, used toilet paper, fast food rubbish, and wine and beer bottles are discarded throughout the park.

Me and many at Kingsland estate would welcome the gate's locked.

Feel free to contact me if you have any questions.

Thank you for your time,

Sincerely,

Martin Drexler
Kingsland resident
