The park and the area used to be peaceful but it has become scary over recent years with drug dealers etc using it as a free for all. I support the application for these gates as they will go some way to reducing the problems.

Anything that improves the security and safety of the park and the surrounding area is most welcome. This application should be granted as the proposed new gates would help reduce ASB and they would look much better than the crowd control barriers which get vandalised.

As an anchor business in Primrose Hill, The Albert pub relies on operating in a safe and attractive environment that customers want to visit. These proposals would immensely benefit the park and the surrounding conservation area. We want to support this application which would be a big improvement on the current arrangements.

I agree that proper gates need to be fitted around the park and I support the application. They will look better and be safer for everyone.
