2023/4542/P	Charlotte Leeming	01/12/2023 17:45:37	COMMNT	The resiting of the front door will help to discourage the drug dealing and other anti-social behaviour that has often taken place here. I hope that this proposal will be approved.
2023/4542/P	Stephen Mann	04/12/2023 13:52:47	INT	Very supportive
2023/4542/P	John and Jill Hitchins	04/12/2023 19:24:09	SUPPRT	<p>The narrow entranceway between the current front door to the flats and the street has been used by drug dealers at all times of the day and night over the past two years. It offers shelter to sell goods because it cannot easily be seen.</p> <p>On several occasions young men and women, presumably intending to wait for a dealer, have forced their way into the neighbouring garage by breaking the metal grill which separated it from the entrance to the flats. The new arrangements address both problems. The grid has now been replaced by an internal brick wall and moving the front door forward removes a site of serious antisocial behaviour. Residents of the flats will feel much safer.</p> <p>We wholeheartedly support this application.</p>
2023/4542/P	Nancy Neville	01/12/2023 13:42:14	COMMNT	This is an excellent proposal and would benefit all the people of the mews and the wider community. I fully support the proposal.
2023/4542/P	P & A Keeling	01/12/2023 17:51:03	INT	Living opposite number 7, we support and welcome their application to change the doorway to deter rough sleepers and drug dealers from using the shelter of their entrance.
2023/4542/P	Andrew Gillman	01/12/2023 10:03:49	SUPPRT	This is a much needed improvement to reduce ASB and improve crime prevention.
2023/4542/P	John and Jill Hitchins	04/12/2023 19:24:08	SUPPRT	<p>The narrow entranceway between the current front door to the flats and the street has been used by drug dealers at all times of the day and night over the past two years. It offers shelter to sell goods because it cannot easily be seen.</p> <p>On several occasions young men and women, presumably intending to wait for a dealer, have forced their way into the neighbouring garage by breaking the metal grill which separated it from the entrance to the flats. The new arrangements address both problems. The grid has now been replaced by an internal brick wall and moving the front door forward removes a site of serious antisocial behaviour. Residents of the flats will feel much safer.</p> <p>We wholeheartedly support this application.</p>
2023/4542/P	Ayesha Waheed	03/12/2023 22:34:55	COMMNT	We are residents at 21d Brownlow Mews and support the application made by 7 Brownlow Mews. Moving the existing entrance door forward to street level, incorporating the current external porch into the internal hallway of the building should help eliminate the potential for crime and anti-social behaviour by removing a public entryway that is frequently used for drug taking/dealing and rough sleeping.
2023/4542/P	Vicky O'Keeffe	02/12/2023 08:27:32	COMMNT	I hope my comments will encourage the granting of planning permission. The change to the front door position will bring the property in line with other Mews buildings and will add greatly to the safety of all residents and users of the Mews.

Application No:	Consultees Name:	Received:	Comment:	Response:
2023/4542/P	James Goodman	01/12/2023 13:03:37	SUPPRT	I am extremely supportive of this application. The real-world impact of relocating the building's front door will be greatly to improve the safety, wellbeing, hygiene and general aesthetic - both of the building itself, as well as of Brownlow Mews more broadly - much to the benefit of all residents.
2023/4542/P	Mr C F Bradish	01/12/2023 12:11:35	COMMNT	I live st 5 Brownlow Mews and fully support this application
2023/4542/P	Chris Bennington	04/12/2023 07:27:34	COMMNT	This is a very welcome improvement to our Mews. As a neighbour, I highly approve of this.
