Dear Sirs

Utopia Village, Primrose Hill, ref. 2023/4757/P

I am writing to object to the proposed introduction of heavy-duty ventilation machinery at the above premises.

This will not impact significantly on our own property but it will have a serious and underestimated impact on those living on the south-east side of Egbert Street and the north side of Chalcot Road.

The estimated decibel output of the proposed machinery may or may not be accurate, but sound acts differently according to its surroundings: the proposed location is closely confined by the surrounding buildings, which will inevitably have an amplifying affect on the immediate surroundings.

A further point that should be taken into account is that machinery of this nature has a well-documented tendency to become louder as it ages.

We urge you not to grant planning permission to this project.

Yours sincerely,

Timothy and EllenSchroder
