FORM AND FUNCTION
IN HARMONY

YOUR MOBILITY IS OUR GREATEST PRIORITY!

IMPROVING YOUR
INDEPENDENCE IS
OUR GOAL.

Space saving design

A compact design is one of our guiding principles at ASCENDOR. The slim form of our lifts combined with a folding platform ensures that your staircase remains free of obstructions.

Practical handrail

The lift is guided along two parallel rails by a set of rollers. The lower rail has teeth underneath for the rack and pinion drive. The upper rail is smooth, clean and dry and can be used as a handrail.

Comfortable operation

The smooth start and stop performance ensures that travel is a pleasant experience; our lifts are low-maintenance and their reliability has been proven in everyday life. The operation of the lift is completely battery-operated; the batteries are recharged when the lift is parked at either landing. The lift will automatically switch off after a period of time without use in order to prevent a deep discharge occurring if it has not been properly parked.

The modern touch sensitive membrane controls ensure that even people with reduced physical abilities and motor skills can operate our lifts.

The graphic display panel will keep you up-to-date regarding the operating status of your lift and gives practical information and advice.

ENJOY LIFE TO THE EASY HOME FULLEST

PLATFORM STAIRLIFT

Your mobility and independence

At ASCENDOR, we constantly strive to produce the perfect solution to the challenges presented by your personal situation. This goal focuses our efforts and we will not cease in our endeavours until we have managed to find solutions, which will improve your mobility and freedom. To achieve this objective, we are continually prepared to rediscover our own creativity.

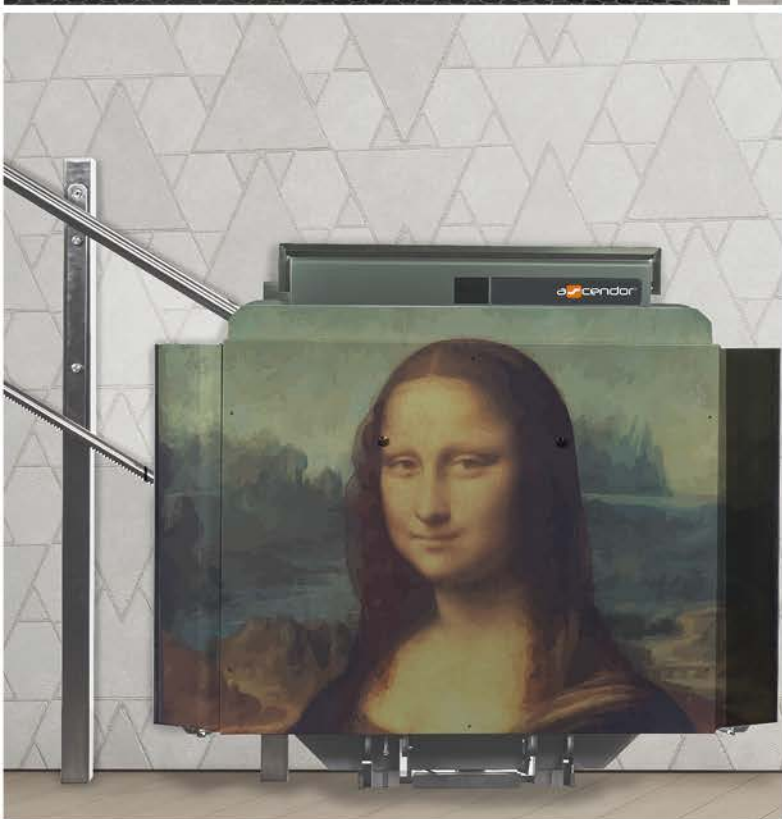

YOUR OWN PERSONAL UNIQUE DESIGNS MOTIF. FOR YOUR PLATFORM STAIRLIFT

INDIVIDUAL PLATFORM CUSTOMISATION

Select one of our design options or present us with your very own personal design, thereby transforming your lift into a work of art, which can blend harmoniously into its surroundings. Make your platform lift an extension of your own individuality.

WHATEVER YOU DESIRE

Original and amusing or classic and timeless.
Your personal motif creates an eye-catching lift!
Bestows a personal touch to each and every lift.

Choose from standard designs or allow us
to decorate the lift to **suit your own**
personal taste.

A | Lockable, secure wall mounted remote control
– ideal for outdoor installations or for use in public buildings.

C | Selection of finishes:
we can deliver your lift in elegant stainless steel or in every RAL colour available ensuring it blends harmoniously into your living space.

B | Portable handheld remote control with a push of the button you can summon the lift to the desired landing.

D | Optional folding seat will transform your platform lift into a chairlift – particularly useful for people with restricted mobility.

INSTALLATION EXAMPLES

Platform lifts for straight and curved staircases

Intermediate landings can be overcome with a curved travel rail (Fig. 1) or by installing rails with elevation changes (Fig. 2). The travel rails can be mounted directly onto the walls or attached to steel stanchions (Fig. 2 & 3). Multi-level landings with parking places can be planned to suit individual requirements.
