Description of the Proposal

Please note in regard to:

- **Fire Statements** - From 1 August 2021, planning applications for buildings of over 18 metres (or 7 stories) tall containing more than one dwelling will require a 'Fire Statement' for the application to be considered valid. There are some exemptions. [View government planning guidance on fire statements](#) or [access the fire statement template and guidance](#).
- **Permission In Principle** - If you are applying for Technical Details Consent on a site that has been granted Permission In Principle, please include the relevant details in the description below.
- **Public Service Infrastructure** - From 1 August 2021, applications for certain public service infrastructure developments will be eligible for faster determination timeframes. See help for further details or [view government planning guidance on determination periods](#).

Description

Please describe details of the proposed development or works including details of proposals to alter, extend or demolish the listed building(s)

The terrace at Nos. 80-90 South Hill Park is sited within the designated South Hill Park Conservation Area, and at the time of being built (mid-1950's) they characterised a new, mid-century approach to terrace house typology. Since the terrace was built, there has been an accretion of additions and changes by the residents on an individual basis. The result is a terrace that has lost some of the coherent, simple rigour and elegance of the original design. The residents of the terrace are applying under a joint application, and commissioning the works as a group, to refurbish the front facade facing onto the street, aiming to re-establish the quality of the original design. There is also significant maintenance and conservation repair required as well as an urgent need to consider the implications of climate change with improvements to energy efficiency. The works to the facade include replacing the aluminium window and door frames with new timber joinery, designed to closely resemble the original. The original exposed concrete slabs and brickwork will be retained and refurbished by a conservation specialist.

In addition, the residents of no.80 who were the original residents of the terrace as children, are keen to de-clutter and re-establish the quality of the original design, both internally and externally, whilst improving thermal performance and remodelling the second floor to the no.80 side extension (initially built as a garage at the end of the terrace). This work would take place concurrently with works to the roof and facade.

3330.00	Cubic metres
---------	--------------

What is the volume of the part to be demolished?

43.20	Cubic metres
-------	--------------

What was the date (approximately) of the erection of the part to be removed?

Month

January

Year

1992

(Date must be pre-application submission)

Please provide a brief description of the building or part of the building you are proposing to demolish

The part of the building that is proposed to be demolished was a later extension to the original 1950's building, completed in 1992.
--

Why is it necessary to demolish or extend (as applicable) all or part of the building(s) and or structure(s)?

The area of the second floor that is proposed to be demolished is of low quality and out of character with the rest of the terrace. There are other, smaller unsympathetic additions such as modern balustrades that also detract from the heritage asset. These pose a risk to the historical significance of this site. Demolishing this area and re-building part of the extension will allow for the rebuilding of a more sympathetic design and the improvement of the thermal performance of the building envelope.

Immunity from Listing

Has a Certificate of Immunity from Listing been sought in respect of this building?

- Yes
 No

Listed Building Alterations

Do the proposed works include alterations to a listed building?

- Yes
 No

If Yes, do the proposed works include

c) works to any structure or object fixed to the property (or buildings within its curtilage) internally or externally?

Yes

No

d) stripping out of any internal wall, ceiling or floor finishes (e.g. plaster, floorboards)?

Yes

No

If the answer to any of these questions is Yes, please provide plans, drawings and photographs sufficient to identify the location, extent and character of the items to be removed. Also include the proposal for their replacement, including any new means of structural support, and state references for the plan(s)/drawing(s).

Existing exterior elements of the scheme that are rotting and dilapidated, such as the brise soleil, will be replaced to match existing. To identify these, please refer to demolition plans, sections and elevations submitted as part of this application. Internal walls to No.80 will be removed as part of the remodelling of the home. To identify these, please refer to demolition plans submitted as part of this application.
