2023/5203/T	Highgate Neighbourhood Forum	30/12/2023 11:41:41	OBJ	<p>Please note that this application is at the same address as 2023/5145/T 5 Fitzroy Close London N6 6JT. On the same sketch map, which is attached to that application, it would seem that T7, is in the front garden. Overall two trees would be felled and many others drastically reduced, significantly increasing the impact of the proposals.</p> <p>Louise Lewis Highgate Neighbourhood Forum</p>
2023/5203/T	Louise Lewis	30/12/2023 11:18:59	OBJ	<p>Although the address is given as Merton Lane, the only road marked is Fitzroy Close so it is difficult to ascertain the precise location of the trees.</p> <p>There is no tree report for the trees and no indication of their height. It is unclear whether a 7 metre reduction for T8, is appropriate or not.</p> <p>It should be noted that many trees have been felled in this area between Merton Lane and Fitzroy Park. The trees provide a useful passage between Hampstead Heath and Highgate Cemetery. The gradual attrition of trees is detrimental to the sylvan nature of the area, to the environment and particularly to wildlife habitat. No reason is given to fell or reduce the two trees and it is government policy to preserve ash trees as much as possible, in the hope of finding a chalara resistant strain.</p> <p>Highgate Neighbourhood Plan Policy OS2: Protection of Trees and Mature Vegetation I. Within the conservation areas or when protected by a TPO, specimen, veteran and mature trees and mature vegetation, which have townscape, ecological or amenity value should be retained where possible.</p> <p>Louise Lewis Highgate Neighbourhood Forum</p>
