Informative(s):

- 1 Reasons for granting listed building consent (Delegated):

No.35 Charrington Street is one of a terrace of 14 houses, built c1845. The terrace was listed Grade II on 5 October 1998.

Consent for war damage repair was granted in 1954 for several of the houses in Charrington Street. The planning history for the terrace is silent on subsequent works.

The main building is formed of stock brick with stuccoed parapet, with a concealed artificial slate tiled butterfly roof. The original roof covering for the terrace was natural slate, however, all roofs were replaced with artificial slates in the last 5-7 years.

The proposal is to replace the artificial slates and reinstate the building to its original design using natural slates.

The proposed works are considered to enhance the significance of the heritage asset.

The application has been advertised in the press and by means of a site notice.

The site's planning history has been taken into account when making this decision.

Special regard has been attached to the desirability of preserving the listed building and its features of special architectural or historic interest, under s.16

of the Planning (Listed Buildings and Conservation Areas) Act 1990 as amended by the Enterprise and Regulatory Reform Act (ERR) 2013.

As such, the proposal is in general accordance with policies D1 and D2 of the Camden Local Plan 2017. The proposed development also accords with the London Plan 2021 and the National Planning Policy Framework.

- 2 You are advised that any works of alterations or upgrading not included on the approved drawings which are required to satisfy Building Regulations or Fire Certification may require a further application for listed building consent.

In dealing with the application, the Council has sought to work with the applicant in a positive and proactive way in accordance with paragraph 38 of the National Planning Policy Framework 2021.
