2023/3777/P	Margaret Wheeler	03/01/2024 14:37:36	PETITNOBJ E	<p>I most strongly object to planning permission for this air con and extractor unit . The site that they want to install it is feet from my kitchen and bedroom and is in a light well. They already have installed it and have been running it without planning permission. The noise coming from it was comparable to an air craft taking off.After complaints from tenants they have ceased to run it and are now seeking planning permission. This has been a problem before with previous tenants and after a court case it was moved to a more suitable site. Installation of this Air con will severely have an impact on my life. I am a disabled senior citizen with complex health needs. I suffer with heart and lung issues as well as complex PTSD. Noise has a serious impact on my mental and physical health . The noise coming from it before they turned it off was so loud and it was intrusive to my daily and nighttime needs and was contributory to a worsening of my physical and mental conditions. The stress and anxiety was appalling.</p> <p>As Runway East want to install it in a light well I would strongly object to this and ask that they be denied permission by Camden Council to install it at the present site.</p>
