Dear Sir/Madam

Ref Application No 2023/5398/T for Tree Works in a Conservation Area

I write on behalf of the Auden Place Tenants Association (membership 86 households). We wish to lodge a formal objection to ALL proposals by One Housing for the felling of 16 mature trees around the estate, with permission to stool a further 8 trees.

APTA is advised that it is not necessary to remove or coppice this quantity of trees to allow room for scaffolding during insulation/decarbonising works.

We are in consultation with One Housing and its contractor Wates in order to preserve as many plantings as possible. Radical felling and cutting back would destroy the character of this area, which is also accessible for the public to walk through and enjoy.

APTA therefore requests that an extension to Camden's consultation period from 20/01/2024 be granted as a matter of urgency to allow time for a resolution between One Housing and the Association.

Yours

Anna Howes (Secretary APTA Management Committee)
