2023/5398/T	Jacqueline and Walter Wills	09/01/2024 16:39:22	OBJ	Felling 28 mature trees to the ground around a very small estate in order to put up scaffolding is completely out of line with conservation. The work that is being done around the estate does not warrant the amount of scaffolding and annihilation of plant life that has been cultivated over many years. There had been no consultation with tenants over the application to fell trees and recently a mature bed of plants had been completely destroyed without the approval of the tenants association who oversee the gardens. This is our home and not a building site.
