2023/5240/P	[REDACTED]	14/01/2024 19:50:04	PETTINOBJE	[REDACTED] Two main objections a) From Regents Park itself, Euston Tower can already be viewed. In winter especially, with bare trees, the building can be clearly seen from the Broad Walk, the eastern aspect of the park near the playing fields, and all eastern parts of the Outer Circle. It is already an eyesore compared to the lovely Nash terraces. The proposed orange/red cladding will be completely against the skyline of adjacent buildings and is at complete odds with the surroundings. b) The proposed increase in size cannot be justified - why not just use the existing building and refurbish it internally? [REDACTED]
