However there is a real need for local vehicle repair and servicing so that older vehicles that meet emission rules can be maintained and thus lengthen their useful life. There is a real movement now to make more and more appliances etc to be repairable thus extending thier life and breaking the consumerist cycle of a short life throwaway culture . Allow this garage to keep in business and thus provide a valuabe local service to owners of all types of vehicles , electric vehicles will need servicing and repairing too.</p>
