

Additional Information for Planning Application – 101 Canfield Gardens Ground Floor Flat

1. The shed is a single room building with a single work/potting bench for preparing plants. The floorplan is:

2. The shed will be used to store garden equipment including storing sort coverings for garden furniture during the winter.
3. The shed foundation is a 10cm deep concrete base matching the 3m x 2.4m dimension of the shed.
4. Wood sleepers have been installed around the perimeter of the site to create plant beds. The roots of the nearby tree were unaffected and are protected by the sleepers.
5. DWG04 provides drawings of the three elevations. The two windows are glass windows with timber frames painted in Old Sage Green colour by Thorndown paints.
6. The fourth elevation not given in DWG04 is the same as the side elevation in DWG04 but without a window in the gable:
