2023/4973/P	Eric Wragge	24/01/2024 09:52:22	SUPPRT	<p>My family and I lived in this property for many years and can well understand the benefits that this proposal provides - improved energy efficiency, reduced noise and light pollution, reduced overlooking, and a better space for live or work.</p> <p>Other than the temporary disruption of demolition and construction, which will be necessary whatever is done with a conservatory that has reached its end of life, this is a great plan.</p>
