2024/0091/L	Amir Nassirzadeh	25/01/2024 17:11:21	OBJ	Hello,

I have strong objections and concerns regarding the planned works.

1. What compensation will you provide, if my furniture will no longer fit?
2. What precautions will be in place for my cat, while work is to be conducted?
3. The planned works will increase the cost of heating the flat.
4. I don't trust the new planned heating system as it based on older technology.
5. I have friends whom live in Whittington Estate, where these plans have already been enforced, and the new heating systems don't work properly.
6. What precautions will you take regarding the Asbestos? I had to sign an acknowledgment, that the flat contains Asbestos. This is a major health and safety concern.
7. I've recently moved into the flat, and will have to redecorate again, increasing costs for me.
8. I will have to make sure I'm home to monitor my possessions, and my cat.
9. I know the increase of heating costs, will make other residents not use the heat as often as they should, which in turn will create condensation, and mould. This is exactly what I have just gotten away from in my previous address.
10. Damages to my floors, walls, will you cover the cost of damages? Probably not.
11. The addition of new radiators will decrease the living space within the flat.
