2023/5141/P	Janet Nassau & Brian Lake	27/01/2024 14:33:04	COMMNT	<p>I have asked Lichfields to make a formal response to this third application for a mansard roof, but would add our personal comments:</p> <ol style="list-style-type: none"> <li>1. Grafton Crescent has the benefit of the protection of local listing; unfortunately Healey Street does not. The result is that Healey Street, an equally good street architecturally, has been spoiled by the erection of mansard roofs.</li> <li>2. Because of the lack of local listing, Camden's attempts to stop the defacement of Healey Street have been ineffective. This application for 13 Grafton Crescent would set a precedent for a street locally listed for its architectural value, which should be refused.</li> <li>3. The applicant mentions several nearby examples which are described as 'precedents' justifying the application. No. 15 Grafton Crescent was built with a flat roof in the 19th century; it is less deep than most of the terrace. No. 14, similarly, and use as a terrace long precedes local listing. The roof extensions cited in Healey Street are irrelevant - see 1. above.</li> <li>4. As a result we strongly object to this application.</li> </ol> <p>Brian Lake &amp; Janet Nassau</p>
