The use of the rear of the premises as an entertainment space where alcohol is served will generate an increase in the level of noise and disturbance on a daily and nightly basis, causing an unacceptable level of noise and antisocial impact on local residents. The use of the premises should be limited to interior areas with adequate soundproofing to minimise the negative impact on local residents.

The new arrangements for the dressing room for the stage is a very good idea and the ensuite rooms upstairs will bring good revenue.

2023/5228/P	Kevin	27/01/2024 14:31:29	COMMNT	It is great news to see this iconic venue potentially reopening. About time too. But the terrace on the first floor must stay as is proposed here.
