escription of Proposed Works	
ease describe the proposed works	

The mews house has fallen into decay and urgent like-for-like repair work and demolitions to reveal the structure beneath has begun to prevent it disintegrating further. To make it habitable as a family home there is a need to improve energy efficiency, to provide a hallway and two new bedrooms on the ground floor, new stairs and other minor internal modifications to meet building regulations. These include:

- 2.1.1 Removal of broken fire escape stair and infill of door into first floor at top of steps.
- 2.1.2 Minor change to the position of front door.
- 2.1.3 New front door and new double glazing throughout. Joinery to match existing single glazing on first and second floors and with slight modifications at ground floor to account for new internal partition walls between bedrooms and hallway.
- 2.1.4 New double glazed windows to rear wall within existing openings at ground floor. New frames with small opening sections for cross ventilation. New double glazed semi-circular windows to rear wall within existing openings at first floor. One of these to be opening.

 2.15 New area of flat roof to the rear of the main building, to provide adequate head height in the master bedroom, hidden from view by existing wall and front roof. It will replace and resolve the disorganised layout of the existing series of flat roofs above the stair as well as an additional portion which is currently pitched roof over the mezzanine.

Why is it necessary to demolish all or part of the building(s) and/or structure(s)? The existing glazing is all single glazed (not energy efficient) and many of the frames are rotten. The rear roof has partially fallen in and leaking in multiple places. The structure in the roof is very weak. Demolition of part of the roof gives an opportunity to add head height to the hidden rear of the roof. **Materials** Does the proposed development require any materials to be used externally? ✓ Yes \bigcirc No Please provide a description of existing and proposed materials and finishes to be used externally (including type, colour and name for each material) Type: Walls Existing materials and finishes: White painted brick and white painted timber tongue and groove Proposed materials and finishes: Off-white painted brick and grey painted timber tongue and groove Type: Windows Existing materials and finishes: White painted timber windows Proposed materials and finishes: Grey painted timber windows Type: Doors Existing materials and finishes: White painted tongue and groove doors Proposed materials and finishes: Grey painted tongue and groove doors Type: Lighting Existing materials and finishes: No lighting to exterior Proposed materials and finishes: Small directional brass lights to front facade Type: Roof Existing materials and finishes: Asphalt flat roofs and fibre cement panel mansard and pitched roofs Proposed materials and finishes: Zinc flat roof and natural slate mansard and pitched roofs
