## Explanation for Proposed Demolition Work

Why is it necessary to demolish all or part of the building(s) and/or structure(s)?

The structures to be demolished are non-original to the property, are poorly proportioned and lacking in insulation. To reconfigure the existing structures to meet the requirements in terms of space, thermal efficiency, shading and natural light, would require an intrusive construction process that would have a high carbon footprint. It is intended to re-use existing materials (brick and timber) where possible.
