2023/5228/P	Paul Maziere	30/01/2024 19:01:17	OBJ	As a resident of 159-161 Camden high street, I am concerned about the opening of a venue in a block which is now largely residential. The noise concerns are huge. The back area of the black cap is regularly squatted and creates a lot of disturbance with just a small number of people. The surrounding of Camden Town station got a little safer since Covid and it would be nice to keep it as such.
2023/5228/P	Cecilia Lo	31/01/2024 00:14:50	OBJ	I strongly object to the application for the following reasons: 1) Noise problems. A cabaret/dance, club, bar space with live music means noise in the evening hours and on weekends when people in the residential homes nearby should be able to enjoy some quiet time and rests. Noise reverberations from the sound system can leak from the stage and dance floor, and travel through the structure of the building to the adjacent buildings. Noise from patrons on the terrace from late night to early morning will be disruptive. 2) Increase number of drunk patrons wandering around the neighbourhood can cause a nuisance. 3) Decrease in air quality from smoke escaping from the proposed smoking area.
2023/5228/P	Jessica Black	30/01/2024 19:27:23	COMMNT	Hello! I hope you're well, I'm writing with concern for the opening of new bar around the corner from my flat at 159-161 Camden High Street. We often have noise issues, as well fighting and violence in the alley, and I'm very concerned that the new venue will exacerbate the issues, it's often impossible to sleep with the current noise issues. I'd deeply appreciate considerations from the council to manage the noise from the new bar
