The Council has considered your application and decided to grant permission.

Informative(s):

1 Reasons for granting permission/consent-

Condition 7 required tree monitoring details in accordance with guidelines and standards set in GS5837:2012 "Trees in Relation to Construction".

Upon consultation with the tree officer, the details submitted pursuant to the discharge of condition 7 are considered to be sufficient to demonstrate how the trees to be retained will be protected. Arboricultural Method Statement (Rev C) provide precise details and timings for monitoring the site. This ensures optimal protection for existing trees during construction and satisfies the requirements of the condition.

As such, the proposed development is in general accordance with policies A2 and A3 of the London Borough of Camden Local Plan 2017.

- 2 You are reminded that conditions 8 (Tree foundation details) of planning permission 2022/1962/P on 13/12/2023 are outstanding and require details to be submitted and approved

In dealing with the application, the Council has sought to work with the applicant in a positive and proactive way in accordance with paragraph 38 of the National Planning Policy Framework 2021.
