

Rear elevation from the centre of 21's garden

CGI Photo-montage shows the proposed northern rear elevation adjacent No.21, as seen from the centre of its garden. A red outline overlay shows the mass of the extant property.

Existing views from the windows of 23B

Rear elevation from the back corner of 21's garden

CGI Photo-montage show the proposed northern rear elevation adjacent No.21, as seen from the very back corner of its garden. A red outline overlay shows the extant property.

Elevated from the very back corner of 19's garden

CGI Photo-montage showing the proposed rear elevation as seen from the very back corner of the garden; unusually high decking affords elevated views over the fences.

Views from the garden of No.17

CGI Photo-montage B shows a view of the proposed elevation from the garden centre at ground level. D & C show views from further back, standing on a decked seating area raised by approximately 200mm at the rear of the garden.
