[REDACTED]

Good morning

Unless, I am too late to comment on the above , may I register an objection please?

The addition of a fan unit to the wall, will increase noise in a very quiet street. It will be built into the garden which belongs to Wentworth Mansions for which the applicant does not have rights . They also propose a fence around the garden. Again I do not believe that they have any right to do this as it is not their land.

Further, I noticed that as part of the fit-out of the new shop, they have "repaired" the windows on both sides. Te quality is poor - do that not need approval in a conservation area to make changes?

Thank you
