PLANT SPECIFICATION NOTES

All planters to have 100mm depth of clean angular stone drainage layer with imported topsoils above to 600mm depths. Topsoils to be from an approved source, in accordance with BS 3882:2015 and be classified as Multi Purpose. Topsoil shall under no circumstances become contaminated by other materials. Planting areas to be cultivated and prepared using ameliorants including Enmag slow release fertiliser or similar approved, applied in accordance with manufacturers recommendations to leave a friable and free draining material free from large stones, debris and other detritus for the full planting depth.

All plant material to be in accordance with the specified Plant Schedule and the following industry standards; BS 3936 Part 1 (1992), 'Nursery Stock Specification for Trees and Shrubs', BS3936 Part 10: 1990 'Nursery Stock Specification for Ground-cover Plants', BS3969 1998+A1:2013 'Recommendations for Turf for General Purpose' and 'Handling and Establishing Landscape Plants' HTA 1985, revised edition March 2002. Any stock planted outside the recognised planting season shall be containerised. Containerised plant stock shall have fully developed root system within the specified pot size.
