Description of the Proposal Please note in regard to: • Fire Statements - From 1 August 2021, planning applications for buildings of over 18 metres (or 7 stories) tall containing more than one dwelling will require a 'Fire Statement' for the application to be considered valid. There are some exemptions. View government planning guidance on fire statements or access the fire statement template and guidance. • Permission In Principle - If you are applying for Technical Details Consent on a site that has been granted Permission In Principle, please include the relevant details in the description below. • Public Service Infrastructure - From 1 August 2021, applications for certain public service infrastructure developments will be eligible for faster determination timeframes. See help for further details or view government planning guidance on determination periods. Description Please describe details of the proposed development or works including any change of use This plan aims to create two folding manual canopies at 51-53 Shelton St, London WC2H 9JU to safeguard the building's beauty from weather damage, promote energy efficiency, and conserve resources while respecting its heritage and neighborhood. There are no substantial works planned, and we intend to retain the building's current facade in its original state while installing canopies with an unobtrusive design that blends with the building's current architectural structure. Proposed materials and finishes: Two Victorian awnings, measuring 5000mm wide and with a maximum projection of 1200mm. The canopies will be made of aluminum housing with timber end cheeks and front lath. Everything will be painted 'London clay'. The colour was chosen specifically to merge visually with the current building design and to evoke the material used to manufacture the initial brick used in London construction to cover building facades. The awning is controlled by a wooden pull-down pole, which, along with the iron arms and slides, works with a tensioned spring roller. Storm chains are also installed on the awning to ensure safety. The material will be woven from Sunacryl 100% solution dyed acrylic fibres and treated with Cleangard for dirt and water resistance.
