2023/5036/P	Covent Garden Community Association (Elizabeth Bax, Chair of Planning Subcommittee)	18/02/2024 19:50:55	OBJNOT	<p>As the amenity society for the area, Covent Garden Community Association (CGCA) wishes to object to the lack of information accompanying this application. There are no drawings to show elevations, nor images to show the appearance of this equipment on the roof.</p> <p>The applicant's Site Specific Supplementary Information states that "the proposed rooftop installation is a replacement site for an existing site share installation". However, it does not say whether the new equipment will sit within the envelope of the existing equipment.</p> <p>As a result it is not possible for us to take a view as to whether the development will harm the conservation area to an extent that more than outweighs the public benefit of improved telecoms infrastructure.</p> <p>---</p> <p>We would in any case like to suggest that screening is provided all around the equipment to improve its appearance. We ask that you attach this as a Planning condition to any consent for this installation, or indeed for any other similar installations.</p> <p>The applicant's Site Specific Supplementary Information states that "it is appreciated that the installation will be visible from some viewpoints within the locality" and that "it is recognised that these works may be considered to cause some harm to the character of Kingsway Conservation Area". Screening will lessen this harm.</p> <p>---</p>
2023/5036/P	Kevin Logan	19/02/2024 13:21:08	OBJ	<p>As Aviation House is adjacent to many residential properties including social housing blocks I would like to object to the installation of rooftop telecommunications and related equipment on the grounds of possible health and safety implications</p>
2023/5036/P	Evelyn Humphreys	19/02/2024 14:31:02	OBJ	<p>Aviation House, formerly The Church of the Holy Trinity (built 1909), was listed grade II by English Heritage in 1974 - thus we trust duly afforded historic significance & appropriate protection. It is in this context however that I object to the application for planning permission to install telecom masts, satellite dishes & accompanying paraphernalia not in keeping with the purposes of such listing.</p>
2023/5036/P	SAMANTHA HARRIE	19/02/2024 11:48:10	OBJ	<p>I'm a resident of Thurstan Dwellings, who's bedroom is less than 100 m away from Aviation House and our communal roof garden where many children play is even closer to the Aviation House roof where the masts will be placed. As a social Housing Community we are VERY concerned about the health impact that such masts could have and would like to strongly object to them being placed on the roof, so close to residential properties.</p>
