There has already been a removal of tree towards the rear of the building which I find unacceptable. It is my understanding that most of the trees in the surrounding area are several decades old, with some approaching two hundred years. As a Camden council resident and living quite close to the property in question, I wholeheartedly object to the felling of any trees in the area. We should be looking to plant more trees not taking down ones that have existed before us. I should hope this matter is taken as seriously as possible and any motion to cut down these trees be seriously discouraged.</p>
