Date: 2nd August 2023

1.0 SUMMARY

This statement has been prepared to support a planning application for the development of the site at 10A HILLGROVE ROAD NW6 4TN.

The application seeks planning permission for installation of an outdoor stair lift to the front of the property.

The justification for this proposal is to provide a high quality of accessibility for the existing and future occupants. This has been actioned following recommendation made by Occupational Therapist.

Although some harm will be introduced to the appearance of the site, this is outweighed by the benefit to occupants as accessibility provisions are required.

The outdoor stair lift and associated fixings will be removed and all works will be made good, after the use of the system is redundant.
