2024/0055/L	Alexander and Mary Ryazantsev	23/02/2024 15:38:22	OBJ	We would like the Applicant to provide more details on the size, positioning and look and feel of the new boundary wall between 131 and 133. In particular, we would like to understand how the Applicant propose to attach this boundary wall to the existing faced between the two properties, especially given that 133 is offset from 131, rather than them being joint on the same line.
