Drawing Nos: See LB Barnet planning application 23/4742/FUL

The Council, as a neighbouring planning authority, has considered your request for observations on the application referred to above and hereby raises no objection.

Conditions and Reasons:

Informative(s):

- 1 The application is for the installation of thirty one pairs of 5.5m high poles (two of which are 6.5m high) with connecting wires and ancillary 1m x 1m x 0.3m metal boxes on public highway in the London Borough of Barnet. The installations are proposed as an extension of an existing ERUV in LB Barnet. An ERUV is an 'enclosure' (in this case a series of poles with connecting wires) which enables the Jewish community to go out and use the highway for everyday purposes without contravening the rule about 'staying in' on the Sabbath.

The nearest installations to LB Camden would be approximately 300m from the Borough boundary in Child's Hill. The installations would not have any impacts on any highways in LB Camden and there would be no effects on the townscape or any heritage assets within LB Camden.

The proposals would not affect the amenity of any LB Camden residents. There would also be no impact on any other relevant Council policies including those relating to designated green or ecological spaces or the Council's policies for sustainable development and climate change mitigation.

LB Camden therefore raise no objections to the proposals.

Yours faithfully

Daniel Pope
Chief Planning Officer
