

- GENERAL NOTES:**
- 1) This drawing and associated drawings set out the aesthetic concepts only and indicate preliminary technical & material references only. Drawing to be read in conjunction with specifications & scope of work document. Do not scale off this drawing. All dimensions in mm.
 - 2) Each supplier / main contractor / sub contractor(s) will be responsible for checking all site dimensions and conditions, taking setting out points and attainment of proper alignment and levels. Each supplier must submit detailed drawings and material samples specified for Aberrant Architecture approval prior to commencing of any fabrication on or off site.
 - 3) Each supplier / main contractor / sub contractor(s) must obtain acceptance from Aberrant Architecture for any changes that would affect the visual appearance of the design or have any major cost implications.
 - 4) Aberrant Architecture has the right to change any of the specifications on this page without notice. The contractor should always liaise with the designer and out-line programme and finishes schedule
 - 5) Figured dimensions are to be taken in preference to those scaled. The contractor is to verify all dimensions and conditions on site.
 - 6) If required all designs are subject to Building Control approval
 - 7) This drawing is copyright Aberrant Architecture LTD.
