Dear Sirs

With reference to the above application to the ash tree at 24-26 Swains Lane which we assume is in the front garden.

We strongly support the intention to reduce height and width of this as it overhangs our front garden by approx 50% and causes considerable nuisance and concern from falling leaves, large twigs and seeds and bird excrement. This concern includes our foundations and the car parked beneath it. It has not been trimmed since 2012

Thank you

Yours faithfully

Patricia and John Herbert
