Details of the pre-application advice received

To support a full application the applicant will be required to submit a full noise assessment of the installation. If the noise assessment indicates that noise from the installation will impact sensitive receptors (i.e. residential properties and other sensitive uses nearby), then a detailed scheme of noise mitigation measures must also be submitted to the local planning authority with any planning application.

The report should be prepared by a person with appropriate acoustic qualifications and should be with full regard to all relevant guidance including Noise Policy Statement for England, National Planning Policy Framework (NPPF), Planning Practice Guidance on Noise, BS 8233 Guidance on sound insulation and noise reduction for buildings, Camden Council's Local Plan, version June 2017 and BS 4142:2014 "Methods for rating and assessing industrial and commercial sound".

Please follow this advice when you submit an application.

I also recommend that the colouring of the flue matches that of the adjacent/host building, in order to minimise its visual impact on the host building and the surrounding area.

Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:

- (a) a member of staff
- (b) an elected member
- (c) related to a member of staff
- (d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.

Do any of the above statements apply?
