2024/0653/A	Kathy Pimlott	12/03/2024 11:19:19	COMMNT	I strongly object to this application on the grounds that internally-lit signage is wholly inappropriate in a sensitive Conservation Area. The small premises would be dominated by the signage, obscuring the frontage and would impact negatively on the neighbouring listed property at 61. Camden should take firm action to protect this area by enforcing non-consented internally-illuminated signage which is proliferating.
