A removal of one space permanently caused by this permanent driveway will cause further strain. There is a disabled bay for 182. And this can be removed if the occupants move or the gentleman unfortunately passes away. But there are a lot of other disabled people living in this road and therefore you will create a precedent if you allow this condition to be removed. For example. I am physically disabled using crutches or a wheelchair to move. I have had a disabled badge from birth. My mobility is getting worse and I will have to use a wheelchair all the time. Getting in my car without help is impossible with a wheelchair. We could build a device in new car space that allows me to do it. In summary are you going to allow me to have a permanent car parking space on my drive as well and remove another valuable permanent residence car parking bay.</p>
