

A1 General	A2 Electronic Access Control System		
Information Commissioner's Office website:	BS EN 60839-11-1:2013 Alarm and electronic security systems. Electronic access control systems. System and components requirements	NFPA series of guides with specific reference to emergency exit, panic exit and any delayed egress requirements. Where there is a conflict between the British standards and NFPA, then NFPA shall take precedence due to the fact that the fire system is being designed to be NFPA compliant with civil defence approval required.	BS 5979: 2000 Remote centres receiving signals from fire and security systems. Code of practice.

Institute of Electrical and Electronics Engineering (IEEE), including IEEE802.3af and IEEE802.3at.	BS 7273-4:2015 Code of Practice for the operation of fire protection measures - Part 4: Actuation of release mechanisms for doors.
ACPO Security systems policy & guidance notes standards.	BS ISO/IEC 15457-1 Identification cards. Thin flexible cards. Physical characteristics.	EN 13633 - Building hardware – Electrically controlled panic exit systems for use on escape routes	LPS 1188 – Specification for Combined Technology Intruder Alarms Movement Detectors.
ACPO – Secured by Design Guidelines for Commercial Development	BS EN 50518-1:2013 : Monitoring and alarm receiving centre. Location and construction requirements	EN 13637 – Electrically controlled emergency exit systems for use on escape routes	
Centre for the Protection of National Infrastructure Guides - http://www.cpni.gov.uk/Security-Planning/Standards-and-specifications	BS EN 50518-2:2013 : Monitoring and alarm receiving centre. Technical requirements	EN 14846 - Building hardware. Locks and latches. Electromechanically operated locks and striking plates.	
Quality assurance system to ISO 9001 standards for services supplied, which shall have a current accreditation certificate in place awarded by either NSI or SSAIB.	BS EN 50518-3:2013 : Monitoring and alarm receiving centre. Procedures and requirements for operation	BS EN 1125 - Building hardware - Panic exit devices operated by a horizontal bar, for use on escape routes	
NSI (NACOSS) Gold standard, SSAIB equivalent or ACPO approved equivalent schemes.	BS 8591:2014 : Remote centres receiving signals from alarm systems. Code of practice	BS EN 179 Building hardware. Emergency exit devices operated by a lever handle or push pad. Requirements and test methods.	
NFPA 730 : Guide for Premises Security	BS 8473:2006 Intruder and hold-up alarm systems. Management of false alarms.	EN 50133-7 Alarm systems – Access control systems for use in security applications: Part 7. Application guidelines.	
NFPA 731 : Installation of Electronic Security Systems Equality Act:2010 Compliance	ISO 15693 Identification Cards – Contactless integrated circuit cards – Vicinity Cards	EN 50133 Suite of standards for alarm systems. Access Control systems for use in security applications.	
BS ISO/IEC 27001:2013 : Information technology. Security techniques. Information security management systems. Requirements	ISO 7810, 7811 and 18555 Identification cards — Physical characteristics	BS 7799-1 Information security management – Part 1: Code of practice for information security management.	
BS ISO/IEC 19794:2005 Information Technology. Biometric data interchange.	LFEPa Guidance Note 64 (determines colour, engraving and operation)	BS ISO/IEC 15457-1:2001 Identification cards. Thin flexible cards. Physical characteristics.	
	BS ISO/IEC 19794:2005 Information Technology. Biometric data interchange	BS ISO/IEC 19794:2005 Information Technology. Biometric data interchange.	
	NACP 30 – NSI code of practice for access control standards.	ISO 14443 A or B standard Identification cards – Contactless integrated circuit cards – Proximity cards
