Dear Colette,

Re: Highgate Library Carbon Reduction Works 2023/3328/L – Condition 4b – roof slates

Following receipt of the granted listed building consent for the above works, we write to discharge condition 4b which relates to the roof slates.

Four samples of slate were delivered to your office on 11th March 2024, these were:

- Canadian Glendyne slate 500mm x 250mm
- New Welsh slate 500mm x 250mm – Cwt-Y-Bugail – Welsh blue-grey
- Reclaimed Welsh slate 500mm x 250mm
- Existing 500mm x 250mm slate taken from the roof for reference.

We would be grateful if you could advise which of the first three slates are approved for the re-covering of the pitched roof.

Yours sincerely,

For and on behalf of Chris Potter Associates Ltd.
