

Examples of seasonality

1. *Cornus controversa* (summer foliage)
2. *Corylus avellana* (winter catkins)
3. *Magnolia sieboldii* (summer flower)
4. *Prunus autumnalis* (winter flower)
5. *Ilex aquifolium* (autumn berries)
6. *Crataegus monogyna* (spring flower)

TREES AND SHRUB SCHEME

The scheme will look to provide a rich and diverse collection of native and ornamental trees and shrubs. Many of the current species in the garden are a collection of hardy exotics and evergreens that provide little seasonality and value to native wildlife. The new scheme looks to celebrate blossom, flower, berries, autumn colour and winter flowers. Trees and shrubs will sit beneath the mature *Plantanus x hispanica* and provide a habitat that both enhances the visitors experience alongside the wildlife that shares the garden.

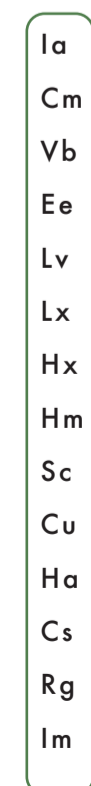

TREES

- *Cornus controversa*
- *Corylus avellana*
- *Magnolia sieboldii*
- *Prunus autumnalis*
- *Prunus avium*
- *Carpinus betulus*

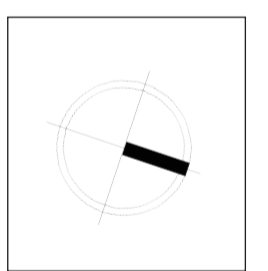

SHRUBS

- *Ilex aquifolium*
- *Crataegus monogyna*
- *Viburnum burkwoodii*
- *Euonymus europaeus*
- *Ligustrum vulgare*
- *Lonicera xylosteum*
- *Hamamelis x intermedia*
- *Hydrangea macrophylla aspera*
- *Sarcococca confusa*
- *Camellia cuspidata*
- *Hydrangea annabelle*
- *Cornus sanguinea*
- *Rosa 'The Generous Gardener'*
- *Ilex x meserveae*

HEDGING

- *Taxus baccata*
- *Carpinus betulus*
