

Window replacement Application of Flat 3, 42 Fairhazel Gardens

This application is to replace single to double glazing windows of the first floor flat of 42 Fairhazel Gardens in order to improve energy efficiency.

All four front-facing windows (windows A, B, C, D) will be replaced with double-glazing windows. All windows will use wood material and white colour.

All windows will be replaced like for like, following the same design as the current windows. The four windows to be replaced are sash-windows, their location is displayed in the picture and diagram below.
