**Subject:** Planning application 2024/0531/P 1,Lymington Rd N

I am writing to voice my concerns re the above planning application. I live in Lymington Mansions and our flat overlooks the property and garden. There are several mature trees which provide a natural habitat for a variety of birds throughout the year. Trees play a vital part in our environment and we cannot afford to lose any of them. The Trees also act as a barrier to traffic noise on nearby West End Lane and Lymington Rd and help soak up the Carbon. Cutting down the trees will release carbon.

I understand that this is a conservation area and the green corridor along the gardens of Lymington Rd and Fawley Rd is vital to our well-being.

Also please note that the main house is not in a good state of repair.
