

PROPOSED REAR ELEVATION

Architectural floor plan of a four-story building. The plan shows a symmetrical layout with a central corridor. The ground floor includes a Livingroom, Dining, Kitchen, and a small Terrace. The first floor includes a Bedroom and a larger Terrace. The second and third floors are labeled "NO WORKS PROPOSED TO UPPER FLOORS". A new french door is indicated in the Kitchen area. The building has a flat roof and is surrounded by a Yard.

new french door with fixed side lights in larger opening

infill between windows to be render to match existing

existing single window removed and replaced with two separate windows

GROUND LEVEL

new wc waste to tie into existing waste

BASEMENT LEVEL

Yard
