Details of the pre-application advice received

"The proposal to erect a two-storey rear extension at lower and ground floor levels is unacceptable in principle due to the less than substantial harm that it would cause to the special architectural and historic significance of the host listed building. There would be no public benefit to justify the less than substantial harm caused by the proposed extension, and so if a planning application were to be submitted for the proposed two-storey glazed rear extension, it would be refused by the Council.

The erection of a single storey rear extension at lower ground floor level could potentially cause less harm than a two-storey rear extension but would also likely encounter many of the same issues as the current proposal. The installation of a standalone garden room in the rear garden could be an acceptable alternative to create further living space at lower ground floor level; however, any such proposals would need to consider the impact of such a structure on the setting of the listed building and the character and appearance of the conservation area."

Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:

- (a) a member of staff
- (b) an elected member
- (c) related to a member of staff
- (d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.

Do any of the above statements apply?

- ☐ Yes
☒ No
