2024/0531/P	Sue harris	28/03/2024 15:19:39	APP	<p>I strongly object to the erection of a single storey house at the rear of 1 Lymington Rd. the grounds are at present, a haven for wild life,the trees providing a refuge and home for many species of birds. We overlook the garden and trees and have experienced the joy of watching birds of many species throughout the seasons, blackcaps, blackbirds, redwings,robins,wrens, magpie, parakeet, chaffinches, wrens , blue tits, tree creepers and wood pigeons.This garden is a natural habitat for wildlife and the trees provide an area of clean air offsetting the pollution from west end lane and Lymington road which are busy congested roads. The erection of a single storey building will only add to the continuing devastation of a green area and impacting in a detrimental way on</p> <p>The well being of all who live in this area.</p>
2024/0531/P	David Wasley	04/04/2024 20:10:27	OBJ	<p>I am objecting to this proposal as it is completely misplaced to be constructing a house in a garden in this conservation area. It will destroy a number of mature trees and significantly impact the wildlife who use the garden as a thoroughfare. This will also remove the barrier which reduces the noise from West End Lane for those in neighbouring properties.</p> <p>The design of the proposed house is out of keeping with all the other buildings in the street, it is squashed in and should not be permitted.</p>
