Subject: 2024/1156/T 33 Highgate West Hill

It is not totally clear where these trees are. Highgate West Hill has not been marked and the West Hill Park Estate only has one road marked, so it is difficult to know where it is.

40% seems a large reduction in the size of the yews and, if they provide screening for the Russian Trade Delegation buildings, the Russian Trade Delegation might well object to such a reduction. It is equally unclear whether they would welcome people reducing the yews laterally, on their side. The sycamores are tall semi-mature trees making a significant contribution to local visual amenity and habitat. A 4 metre reduction seems excessive.
