Good Morning

The Highgate Conservation Area Advisory Committee would like to comment on the above tree application relating to 33 Highgate West Hill.

For some reason, the application seems to have been closed a few days after it was registered and there is no comment box to use. Hence this email.

Our comment would be :

Although there would be no objection to some reduction to any of these trees, we feel that a reduction of 40% is excessive and may harm and/or disfigure the trees in question.

Best wishes,

Jan Brooker

Highgate Conservation Area Advisory Committee
