Job Title: Green Space Project Officer

Job Grade: Level 4 Zone 2

Salary Range: £45,042 - £51,870

About Camden

'Camden is building somewhere everyone can thrive, by making our borough the best place to live, work, study and visit. Because, we're not just home to UK's fast-growing economy. We're home to the most important conversations happening today. And we're making radical social change a reality, so that nobody gets left behind. Here's where you can help decide a better future for us all.

The role

This dedicated Green Space Project Officer role will serve as a catalyst for a borough-wide food growing initiative, aligning with the council's strategic priorities and capitalising on the increasing community interest in food growing. While food growing alone cannot directly eliminate food insecurity in Camden, it can serve as a powerful tool to educate individuals and children about food sustainability, reduce food waste, promote nutritious food choices, and foster community connections. This program will directly contribute to the Council's Food Mission; *'by 20230 every person in Camden eats well every day, with good quality, affordable, sustainable food'*.

The post will manage a high profile programme within the council, adopting a mission-oriented approach to delivery. A key part of this work is understanding the constraints and challenges associated with establishing new food growing sites, as well as highlighting the opportunities and successes of existing groups and networks.

The role will also be responsible for initiating a portfolio of new food growing projects from inception through to completion within the 2 years contract term. This will involve managing multiple internal stakeholders with an interest in food growing, ensuring effective engagement with councillors and Camden's communities throughout the project.

About you

- A thorough, working knowledge of green space and food growing policies, plans and issues in an inner city environment
- Excellent project management skills and proven experience in effectively project managing improvements to parks and open spaces.
- Experience in contract procurement, monitoring and management, dealing with contractors and sound technical knowledge of the range of services delivered by Green Space
- Excellent track record of financial management, budget control and experience of delivering services within financial limits.
- Excellent written and verbal communication skills with the ability to express and present complex information accurately, clearly and concisely both orally and in writing to a range of audiences including senior management, councillors, stakeholders and members of the community.

- Excellent IT skills including MS applications, spreadsheets and database systems. A working knowledge of GIS is desirable.
- Able to devise and manage appropriate and effective consultation and engagement exercises with local communities, work closely with elected members and manage public meetings.
- Excellent organisational skills - ability to manage conflicting priorities, handle a busy workload and meet frequently changing deadlines.

Work Environment:

- The post involves a combination of office-based work, working from home and outdoor site visits.
- The job requires flexibility with regard to the changing nature of projects within Camden's green spaces.
- The post works across parks that are based within an inner city environment.
- Work will sometimes take place outside of normal office hours evenings and weekends.
- Lone working in some isolated sites.
