Subject: Alexandra Road Flats proposals

Dear Ms Quigley

Re planning applications 2023/5338/P and 2023/5339/P, and Historic Building Consent applications 2024/0091/L and 2024/0286/L.

I write with reference to the above and to register my strong objection to the proposals.

Alexandra Road is an important seminal work of architecture and the Borough of Camden should to respect and honour this unique heritage which is in it's care. The proposals will deface the building with extraneous pipework, wiring and other elements and go against the architect's original intention. There must also be a substantial worry that if these proposal do go ahead, they will give free reign to any future extra pipes and wires that could further deface the building.

I urge you to seriously consider refurbishing the existing environmental systems with the input an intelligent and careful engineer and architect of reputation to produce an improved proposal that respects the architecture in an appropriate way.

Your sincerely

Alan Stanton OBE RA RDI RIBA
