Why do you consider that a Lawful Development Certificate should be granted for this proposal?

Under permitted development, an addition or alteration to its roof is permitted development under Part 1, Class C (other alterations to the roof of a dwellinghouse) of the Town and Country Planning (General Permitted Development) (England) Order 2015 (as amended) subject to certain conditions.

In a Conservation Area, enlargements are prohibited, however alterations are not and therefore the insertion of rooflights would be permitted development provided they meet the following criteria:

- Any alteration to project no more than 150 millimetres from the existing roof plane
- No alteration to be higher than the highest part of the roof
- Side facing windows to be obscure-glazed; any opening to be 1.7m above the floor

The application is in line with these criteria and so should be permitted.
