12/4/24

Dear Planners and Tree Officers,

List 783 1/4/24
25/3-31/3/2024

No tree applications, but proposed work at the Chester Road Hostel site 2024/1034/P. I assume that *Metasequoia glyptostroboides* (Dawn Redwood) will still be planted at the apex of the site. I personally do not object to the shower room layouts being made compliant, the lowering of the height of the hostel by 100mm, due the proposed use of a light gauge steel construction method and the insertion of a roof access ladder to block 3.

Thank you,
Eileen Willmott
